

**D**iscover and enjoy one of Sweden's best kept pastoral and architectural secrets: the island of Gotland. Wander the cobbled streets of Visby lined with their old Hanseatic merchant's houses topped with crow-stepped gables by night and by day, enjoy the botanists paradise that is the island itself. After your summer idyll take in the sophisticated charm of Stockholm with its eclectic mix of new and old.

An ideal place to hang out with Sweden's A list, days in Gotland pass in a haze of wild flowers, lilac hedges, twisting roads through fading grass meadows, flocks of swans, granite grey cliffs and always the white tufted blue of the Baltic. If you see nothing else make sure you see the Raukars, weird Easter Island like rock formations standing up to 5 meters high.
